THURSDAY, DEC. 14, 1899

In all this talk about changing the manner of voting, the best suggestion we have seen comes from the Cynthiana Democrat. It suggests electric gloves—the right hand for democrats and the left for republicans. By a simple arrangement the glove directs the stencil to the proper place and stamps under the device. Of course should a republican get his hand in the democratic glove, or vice versa, a circuit would be closed that would result in instant death. Still, night schools would be necessary to teach the intelligent voter his right hand from his left; and in many instances it would be necessary to dehand voters to prevent their voting themselves into kingdom to come.

A Louisville paper says its fad in cities now for the sawdust people, yer know, to give "Hayseed Parties," at which they try to dress like country folks, or, as they say, "Rubes." Now this burlesque might be alright, but the city girl will never take to it. When she is divested of her paint, wire hips, bird-cage bustle, and some dozen other articles which go to complete her "make up" she will far from resemble the rosy-cheeked, plump, healthy country "gal," she would faint and make light of.

Gov. BRADLEY would do a good turn by the state if he would put the militia after the little cross-roads correspondents to daily papers who do more to give Kentucky a bad name than do all the feds, negro burnings, etc. Not half the stuff telegraphed to the dailies is worth mention in the country local papers. The daily press is not so much to blame, as they have to accept reports sent from parties they think are reliable.

The editor of the Cynthiana Democrat says if he had taken the gratuitous advice given by different friends within the past ten years, he would have had wives enough to stretch from here to Utah. But he believes in letting good enough alone and remains a bachelor.

The rainy day skirt is meeting a cold reception from the box-ankled and big-footed portion of the female sex, but girls with pretty ankles and graceful footies wear them when the smallest cloud is observed in the sky.

TODAY, the 14th, is the 100th anniversary of the death of George Washington, familiarly called the "Father of His Country." This is a notable day from the fact that it is the only one of consequence upon which the post offices, banks, and schools do not close.

Gov. W. S. TAYLOR was inaugurated Tuesday, amid much bomb and parade. The other officers-elect do not take their seats until next month. The democratic candidates have filed notice of contest, save Gosbel and his running mate, whose contests will come before the legislature.

As rubber goods are very high, we presume those Frankfort merchants who brought on large stocks of top boots for the blood-waders will be left with the bag to hold.

Reports from Frankfort say Governor-elect Taylor will retain Gen. D. R. Collier as adjutant general. Gen. Collier has made a good officer and his Garrard county friends are glad to know that he will be kept in.

The Louisville base ball club, or rather its "best" players, have been sold to Pittsburgh. All kinds of old junk has been on the increase in price lately, and the sale at Louisville is not surprising.

Inventors of the wireless telegraph, the air ship, and many other wonderful mechanisms will doubtless reap a great financial harvest, but the man who completes the devil-proof coffin will receive the entire wealth of the world.

Now that the election is settled, the sap-heads who wanted to wade in blood will have to go to driving ox carts or plowing to make enough to keep from starving until another election rolls around.

Free.
The latest county maps of Kentucky and Tennessee will be furnished free to the schools of Garrard Co., on application of teacher or School Trustees to R. E. McRoberts. 10-2-6t

The entire time of the House this week is being given up to the debate on the Currency Bill. Little of importance will be done by the Senate beyond preparation by committees for future work.

As a cure for rheumatism Chamberlain's Pain Balm is gaining a wide reputation. D. B. Johnston of Richmond, Ind., has been troubled with that ailment since 1862. In speaking of it he says: "I never found anything that would relieve me until I used Chamberlain's Pain Balm. It acts like magic with me. My foot was swollen and paining me very much, but one good application of Pain Balm relieved me. For sale by R. E. McRoberts, Druggist."

The ceremony was performed by Rev. J. C. Massee, of Lancaster. After the usual congratulations they left for Danville, and from thence to Lexington, where they will visit relatives.

An editor prints his paper to give his patrons the news of the day and for the money there is in it. He is presumed to know of what he writes, and he generally does. When he writes as he does in the Leader Courier, Osceola Mills, Pa., without fee or hope of reward, that "Chamberlain's Cough Remedy acts magically, and we have found none better in our household. If you have a cough, try it," it may be accepted as an honest expression, worthy of credence. For sale by R. E. McRoberts, Druggist. 1m

The Democratic candidates have not decided whether they will contest. The matter will probably be determined at a meeting of the State Democratic Committee, which has been called for at Frankfort.

In the Court of Appeals Saturday an important opinion was handed down by Judge Paynter in the case of Nall vs. Tinsley—the Ohio county tissue ballot case. The opinion holds that all ballots should be printed on white paper, "sufficiently thick that the printing can not be distinguished from the back," and that if ballots do not substantially comply with the law the election is invalid. The opinion was prepared more than a week ago, but was held up on account of the intense political feeling. Judges Burman and DuBelle dissent from the majority opinion, and Judge Goffey declines to assent or dissent, because he was not sitting when the case was argued.

In Memory of Mrs. Sallie Sutton.
As God plucks the brightest flowers and places them around his throne He has plucked one from our midst, Mrs. Sallie Sutton wife of Mr. Wesley Sutton, after a long and painful illness she fell into the arms of Jesus at her home near New 9th, 1899. She made her peace with God several years ago since which time she has lived a consistent Christian. She was a member of the Christian church, she never expressed any doubt of her salvation, and was only unwilling to leave her family, but before God called her away she became reconciled to go home to her loved ones gone before who had preceded her.

Mrs. Sutton was a kind wife, affectionate mother and a good neighbor always ready to lend assistance to the sick and suffering. She leaves a husband and nine children and a host of friends to mourn her loss. A FRIEND.

Watch For Bradley.
Governor William O. Bradley was given a handsome watch Saturday by leading colored people of Kentucky as a mark of appreciation of his kindly interest in the Negro race. The Governor was greatly surprised when a delegation of colored citizens filed in to his office Saturday afternoon. He thought that they had come to say something concerning the horrible Maysville affair. The watch is a handsome one of solid gold and single case. The face is unique in having old fashioned figures as indicators instead of Roman characters. On the outside was the monogram "W.O.B." while inside the case appeared "To Governor William O. Bradley, from the Negroes of Kentucky, December 9, 1899." On the cap of the movement appears this sentence quoted from his indorsement on the application for the pardon of George Dinning, who shot the leader of a white capping party: "Too long have mobs disgraced the fair name of Kentucky." Below this appears the following sentence from one of Bradley's recent campaign speeches: "I plead for more kindness and more justice for the Negro of Kentucky." The charm is set with three diamonds and the chain is of heavy gold with twist links.

Governor Bradley thanked the visitors for their remembrance, and accepted it graciously, but he added that he would have been even more pleased had they taken the money and given it to one of their institutions of learning. In closing he said: "I am proud of the fact that I have been the Negro's friend and have done all I could to advance his standing as a citizen and to elevate his race."

It Hits The Spot.
When suffering from a severe cold and your throat and lungs feel sore, take a dose of Foley's Honey and Tar, when the sore throat will be at once relieved, and the inflammation of the parts affected will be experienced and you will say: "It feels so good. It hits the spot." Guaranteed. C. O. & J. E. Stormes.

SIMPLE SENSE

There is a right way to do all things. An expectant mother can easily realize, if she stops to think a moment, how dangerously wrong it is to swallow medicines when in her condition. She can see that the outside application of a liniment which softens and relaxes must certainly be the thing for her to use. Such a liniment is **MOTHER'S FRIEND** which she can depend upon doing her a world of good before and during labor. Send to us for our free illustrated book, "Before Baby is Born." Mother's Friend is sold in drug stores for \$1 a bottle, or from THE BRADFIELD REGULATOR CO., Atlanta, Ga.

Louisville has been content with being called "the Fall City," but as Uncle Sam, for the sake of navigation, has about blown up every vestige of the beautiful Ohio river falls, we will have to get a new name. Nothing would be more appropriate in the light of our importance in the tobacco industry, than to call Louisville in the future, "The Tobacco City." About half the population in the city in a direct or indirect way, derive their living from the various branches of the tobacco industry.—The Weed.

Frisbie.

Robbed the Grave.
A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed at R. E. McRoberts Drug store.

The people who are "lucky" with turkeys are those who exercise good management. If possible, mate young gobblers with old hens. Give full liberty to the flocks, and then see that they have nourishing food in the right variety at home, and it is not well to have turkeys over fat. Set the early eggs under hens, and turkeys will lay more if their eggs are not left in the nest. Let the nests be roomy, on the ground and in a retired spot.

According to recent estimates the 1899 crop of potatoes will go down on record as the largest in the history of the country. Figures based on a careful review of the various producing sections place the total yield at 250,000,000 bushels against 244,000,000 bushels in 1898 and 174,000,000 bushels in 1897. The highest price, in 1898, caused the farmers to increase potato area about 3,000 acres and though the yield per acre is smaller than last year the total results show a tremendous increase.

A SURE CURE FOR CROUP.
Twenty-five Years' Constant Use without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent an attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without failure. For sale by R. E. McRoberts, Druggist.

August Flower.
"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last years, I have met more people, having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at J. E. Stormes' Drug Store. Sold by dealers in all civilized countries.

My little daughter has been subject to severe colds and croup, and often taken with violent coughing spells at night. Dr. Bell's Pine-Tar-Honey is the only preparation I have found that will relieve her. I think it is necessary in the household.—B. L. JAMES, Louisville, Ky.

I have been seriously affected for twenty-five years with a cough and pain in my side and breast that were causing me a miserable life. I spent hundreds of dollars with doctors and for medicine, but everything failed until I used Dr. Bell's Pine-Tar-Honey. It healed the world, and has saved my life. I recommend Dr. Bell's Pine-Tar-Honey to everybody with weakness. It is a great success.—J. B. ROBERTS, Grantburg, Ill.

I have sold Pine-Tar-Honey for one year. Find it a splendid remedy and good seller. Sold five bottles to Miss Bella Howell, of this place, who was considered to have consumption. She is now in good health.—J. E. GARNHAM, Druggist, Grantburg, Ill.

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Wahle, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm. The Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scar which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway." Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD
—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Insist upon S. S. S.; nothing can take its place. S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by S. F. Specific Company, Atlanta, Georgia.
